

Jayon Woodard

Staff Engineer

Education

BS, Civil Engineering at UNC
Charlotte, 2020

Year Joined AMPHION

2022

Years of Experience

Since 2020

Mr. Jayon Woodard has been a Project Engineer with Amphion Analytical Engineering, P.A. since January of 2022. Mr. Woodard has experience with structural engineering and technical projects including finite element analysis (FEA), structural analysis, piping inspections, façade repair design, and mechanical integrity assessment.

Mr. Woodard has performed structural analysis of existing components, finite element analysis (FEA), drafting and modeling, pole & cell tower analysis, as well as overhead and underground electrical service design. He specializes in 3-D modeling of mechanical equipment and structural elements using programs such as AutoCAD and RISA 3-D.
